

CHIHAMBA'S MISSIONS AND PROGRAMS

Chihamba was created to provide knowledge and to give a better understanding of West African culture. Through the use of traditional West African music and dance, African proverbs and parables, Chihamba strives to provide its audience with a positive message that celebrates life and culture.

Chihamba captures audiences in communities around the country, with presentations that are both educational and entertaining. Chihamba provides services ranging from educational presentations in schools, programs for youth, dance and drum workshops as well as festival entertainment. Chihamba sponsors the Annual African-American Cultural Arts Festival held in Charlottesville and Albemarle County, Virginia and several multicultural events leading up to the festival. All events serve to celebrate the rich heritage of people of African ancestry and their contributions to the community, the nation, and the world. Chihamba is a non-profit organization.

The spirit of Chihamba is catching. Timeless rhythms bring to life the spirit of the African culture with pure energy and excitement. In Chihamba performances the audience is invited to join in to dance and celebrate the spirit of the African Culture.
